MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Development and Approval of Army Warfighting Requirements

1. References:

a. Memorandum, DCSDEV, May 02, subject: Development and Approval of Army Warfighting Requirements

b. TP 71-9(draft), Nov 01

2. When submitting an Operational Requirements Document (ORD), a Simulation Support Plan (SSP) is required (reference b). HQDA will not concur with the ORD unless an SSP is provided. TRADOC DCSDEV requires a complete ORD package to be submitted as per reference a. Agencies must pay particular attention to documents in development and not yet formally approved by HQ TRADOC. The SSP is a critical component of the ORD package.

3. Information about the SSP may be found on the DCSDEV website in TP 71-9. Current information related to SSP development and reviews is available on the ODCSSA website. The SMART Planning Guidelines contain additional information and can be found on the AMSO website.

ALLAN M. RESNICK
Assistant Deputy Chief of Staff
for Developments
